

COMMUNAL GARDEN NEWSLETTER

The children have been enjoying harvesting and eating the fruits and veggies from our garden. It is tidy up time now for winter planning. The Garden Committee would appreciate some help with the children to clear away summers plants, re-dig the soil and prepare it for some winter plants.

We would also appreciate it if someone could cart away all of the compost.

Lastly we are seeking help to pick up some child friendly bark from ITM Kaiapoi to lay around the communal garden planter boxes.
